SUMMARY

Full-Stack Software Developer with 1 year of experience building web applications, payment systems, and e-commerce platforms. Skilled in TypeScript, React, Next.js, React Native, Java, Spring Boot, and PostgreSQL. Holds a Master's in Data Science and an Amazon Junior Software Developer Professional Certificate.

PROFESSIONAL EXPERIENCE

AI Software Developer - Internship 02/2025 - 08/2025

[Sofimed Maroc](#)

- Built an AI recommendation system for pump selection using LangGraph & Flask, achieving 70% accuracy.
- Developed custom AI agent tools to process client specifications efficiently.
- Created Next.js/TypeScript frontend with Supabase & Redis caching for high performance.
- Implemented an internal support ticket & IT inventory system with automated reporting

Technologies: Next.js, TypeScript, Supabase, Redis, LangGraph, Flask

Software Developer - Freelance 09/2024 - 11/2024

[Kora Awards](#)

- Delivered a secure paid voting platform with multi-gateway payment support.
- Built a real-time dashboard for transaction and performance monitoring.
- Implemented CI/CD with GitHub Actions and Docker for reliable, automated deployments.

Technologies: Next.js, React, Tailwind CSS, Express.js, Firebase, Docker, Umami, GitHub Actions

Software Developer - Freelance 08/2023 - 10/2023

[Africkana](#)

- Built a responsive radio website with playlists, podcasts, and a content management dashboard.
- Developed an integrated ad management system for audio (MP3) and visual (banner) ads with streamlined workflow.
- Ensured cross-device performance and engagement using responsive design principles & PWA (Progressive Web App)

Technologies: Next.js, React, Tailwind CSS, PWA, Google Analytics

EDUCATION

Master's degree , Data Science & Big Data 2023-2025

[Université Hassan II de Casablanca](#)

Bachelor of Science, Computer Science 2020-2023

[Université Hassan II de Casablanca](#)

PROJECTS

Ismaïlchabane.com - Next.js - Tailwindcss - MDX - GSAP

A professional portfolio site showcasing my work as a Full-Stack Software Developer with a Master's in Data Science & Big Data.

Votemoui.com - Next.js - PostgreSQL - Lemon Squeezy (Payments) - Prisma ORM

Developed an online voting platform supporting both free and paid events. Implemented a multi-tenant architecture with separate dashboards for organizers, secure payment processing, and real-time voting updates.

Call Center - Next.js - PostgreSQL - WordPress - Prisma ORM

Built a multi-role ticketing platform for call centers where agents can create and assign tickets to commercials after calls or emails. Integrated automated email notifications, live chat, and a WordPress client portal for direct ticket submission.
